ROOFTOP URBAN FARM TOUR @EXPO

A joint collaboration with Singapore EXPO and BlueAcres

Book your tour to discover how limitations can be turned into opportunities. This is where urban farming, sustainability, and technology converge towards the Singapore Green Plan 2030. Located atop Singapore EXPO, Asia's most sustainable MICE venue powered by renewable energy, this rooftop farm redefines the possibilities in land-scarce cities.

$60 per person*

**Minimum 20pax*

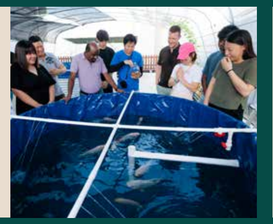
EXPLORE OUR THEMED ZONES

Hydroponics, Aquaponics & IoT Farming

360 Tower systems, Nutrient Film Technique (NFT), and Aquaponics demonstrate how we can grow more with fewer resources—using up to 90% less water by maximising underutilised spaces—while IoT technology drives smarter, more efficient farming.



Agroforestry Edible Garden

A living green tapestry mimicking natural ecosystems, blending edible crops and biodiversity to build a greener urban environment—bringing nature closer to daily life.

Composting with Purpose

Black soldier flies, composting worms, and aerobic bins transform waste into wealth, showcasing Singapore's push towards a circular economy and reducing landfill dependence.

Edible Maze Garden

This is a unique attraction where you can wander through lush greenery and enjoy an interactive farm experience that blends education with fun. This living maze features a variety of edibles, including corn, chillies, okra, melin, and a range of herbs used in diverse cuisines.

Ginger Showcase

Preserving traditional knowledge and celebrating Asian botanicals support cultural sustainability and biodiversity conservation within a modern city. Our stars range from Turmeric, Galangal, Bentong Ginger and more.

Smart Sustainability

Solar panels, rainwater harvesting, and real-time sensors showcase our move towards renewable energy, efficient water use, and climate-resilient urban farming.

ENGAGE THROUGH HANDS-ON EXPERIENCES

**Activities are subject to availability*

Farm Work Adventure

Sow seeds, transplant, and harvest crops in the farm.

From Garden to Plate*

Taste fresh, pesticide-free herbs straight from the source.

Ginger Galore*

Experience harvesting nature's spice.

Meet the Mini Farmers

Get up close with composting worms, black soldier larvae, and flies.

A Splash of Calm

Relax with a fish-feeding experience.
